Cleantech Law Partners

# SOLAR ENERGY PRACTICE GROUP

**Cleantech Law Partners** is a full-service law firm dedicated exclusively to the unique legal and policy needs of renewable energy project developers and cleantech companies. Our attorneys have extensive knowledge of and a passion for these industries, and experience advising clients on a variety of alternative energy projects, including solar, wind, biomass, biogas, tidal, wave, hydro, geothermal, and energy storage.

**Cleantech Law Partners** helps developers, investors, manufacturers, and entrepreneurs develop and finance projects, draft and negotiate various agreements, secure intellectual property rights, access government funds, and manage financial transactions. CLP also serves as outside in-house counsel for renewable developers and financiers.

## Cleantech Law Partners assists:

- > Renewable energy project developers
- > Cleantech startup companies
- > Solar developers and builders
- > Geothermal exploration companies
- > Environmental consulting firms
- > Producers and suppliers of biofuels
- > Owners of rooftop solar systems
- > Green building contractors
- > Manufacturers of solar cells
- > Government agencies and policy makers
- > Investors in clean technologies
- > Utilities switching to alternative energy
- > Developers of biogas projects

## Areas of Expertise:

- > Project structuring and financing
- > General counsel services
- > Corporate management and restructuring

- > Solar acquisitions and mergers
- > EPC agreements
- > Project due diligence
- > Financial transactions and investments
- > Intellectual property and licensing
- > Economic incentive programs
- > Policy analysis at federal, state and local level
- > Permitting, siting, and regulatory compliance
- > Tax equity investment
- > Interconnection agreements and grid access
- > Government relations and lobbying
- > Solar projects on tribal lands
- > Draft legislation, amendments and regulations
- > Private equity and venture capital
- > Solar lease agreements
- > Environmental compliance

## Representative Matters:

- > Represented investors in solar energy projects
- > Negotiated PPAs and offtake agreements for a variety of energy projects
- > Secured land use and environmental permits for major solar PV project developers
- > Drafted solar lease agreements for renewable energy project developers
- > Negotiated interconnect agreements for utility scale solar project developers
- > Advised world's leading solar thermal company as in-house counsel
- > Advised solar contractors on environmental law requirements during site selection
- > Counseled landowners on financial aspects and legal implications of solar projects
- > Represented banks regarding due diligence and debt facility for solar loans
- > Represented community based solar energy project developers
- > Revised PPA template for government agency

## Solar Team Profiles:

**JON NORLING** is a seasoned renewable energy attorney with experience working as general counsel for a regional energy developer in the process of developing over 1,500 MW of renewable energy projects. He has represented clients in all aspects of renewable energy project development and finance. Jon is an adjunct professor at Lewis & Clark Law School teaching renewable energy development law.

**LOLLY ANDERSON** specializes in corporate, energy and environmental law. Her practice includes advising clients on real estate and environmental permitting, renewable energy development, mergers and acquisitions and corporate formation and compliance. Before joining CLP, Lolly was in-house counsel at a solar and wind acquisition and financing platform where she worked on project acquisitions and corporate compliance.

**KEITH GORDON** focuses on utility-scale renewable energy project development, outside in-house counsel services, and corporate and small business planning. He has experience with many solar energy transactions, project acquisition, real estate matters, structuring and drafting EPC contracts, Power Purchase Agreements, and Operations & Maintenance (O&M) Agreements.

**GORDON ALTER** has broad experience in renewable energy development, investment and financing. Most recently, he acted as general counsel for a publically listed energy developer. He has experience in all phases of renewable energy project development, including land acquisition and permitting, financing, M&A transactions, power purchase agreements, interconnection and transmission service agreements, and EPC contracts.
